

VC12 Priority monads

The following 1km squares (monads) in VC12 have less than 10 species recorded during 2000-2024, so need surveying. I have omitted monads from the list that are on the border with neighbouring vice counties and have only a small part within VC12. I have also omitted other monads where I cannot see anywhere to park a car within the monad or up to about 1km away from it.

For those monads listed I have 'driven electronically' along the roads shown on 'Wheres the path' at <https://wtp2.appspot.com/wheresthepath.htm> to try to identify possible parking places for just a single car. As places often change, many of these are probably now unsuitable - the only way to know is to physically go there. Always avoid blocking entrances. Some pubs are included as possibilities, but often parking there is limited to patrons using the pub. Often the parking place suggested is outside of the monad to be recorded, so please note which 1km square applies to all your records.

I will appreciate any help with collecting plant records in these monads, either by joining in my own visits or done separately. You could either enter your records on Living Record, or by using the Microsoft Word recording form on the Hants Plants website.

Monad	Survey done?	Area	Comment	Public accessibility	Tony's outings	Taken on by
SU2839		Over Wallop	Minor roads, short arable footpaths, park at pub SU2815 3832? SU2739 & SU2837 also are poorly recorded.	Fair	11/07/2025	Tony & Mike Marshall
